No aircraft or Soviet soldiers were stationed at the Tarnowitz (W 54/0 30) airfield on 9 January 1951. Two VP men guarded the field. The landing field was not serviceable but some craters were being filled and debris was being cleared away. A new revetment was seen on the western edge of the field. *

25X1A * Comment. The airfield is presumably being reconstructed. Another source reported that the field was blocked to all civilian traffic. No reports have been received indicating the extent of the construction.
